To Whom it May Concern:

I would like to express the pleasure that I have experienced in working with LMI the past several years. It is rewarding to be able to furnish products to a competent contractor that utilizes them properly. As a manufacturer, having a relationship of trust with an installer is paramount. I appreciate the fact that if a question ever arises, the LMI staff will always ask about appropriate usage before just acting. This scenario can be rare in construction. Joe, Michael, and Alan have all been open-minded toward new ideas, products and building methods. I feel that LMI would be an excellent choice to represent your system because of the orientation to planning and detail that they possess.

Sincerely,

Sean Varner
